

Touch-Plate® Lighting Controls

Royal / Low Voltage Switches

The Royal:

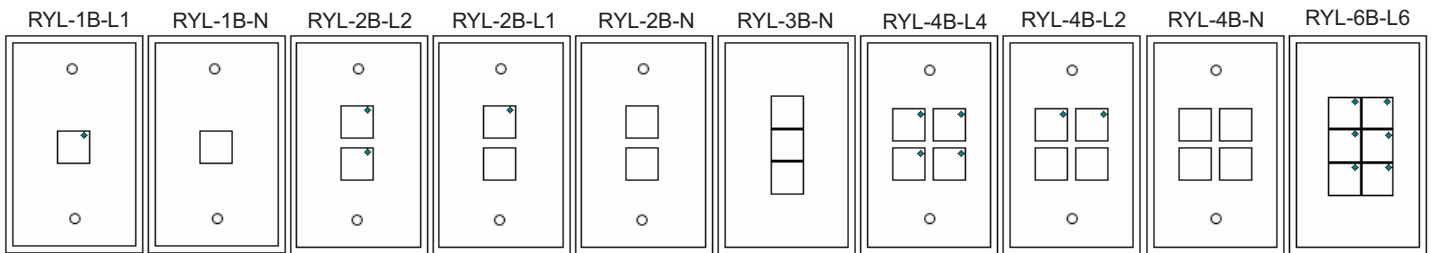

The Touch-Plate Royal series of switches offer a larger button with great feel and an additional audible feedback. Multiple button configurations are available to accommodate most control applications. The switches are rugged industrial quality. The metal covers and frames are available in several finishes. Royal switches add the professional touch any low voltage control system, with versions available handling a range of 5VDC to 24VDC LED output voltage. Indicate your LED voltage requirement at time of order.

RYL-3B-L3

Features:

- 2 wire momentary push button switch
- Cover plates can be engraved
- Green LED pilot lights
- Some custom multi-gang configurations available with 1, 2, or 4 buttons per gang. Contact factory for help.

Ordering Information:
