

### The ZoneZ-D:

Touch-Plate® Lighting Controls ZoneZ-D is the solution to replace any Touch-Plate® system installed from 1946 through the 1970's.

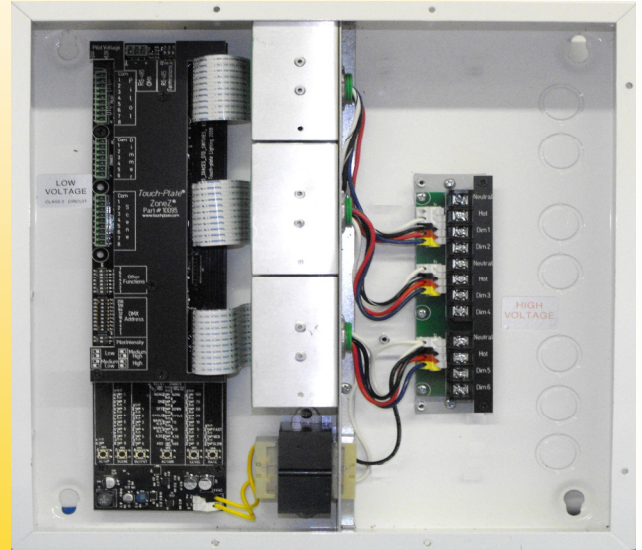

Designed specifically to dim any existing Touch-Plate® system loads in the home. An upgrade includes dimming or relay modules, power supplies, and LED status.

ZoneZ-D can dim up to 6 loads in a single panel. It was also designed to allow for both Dimming and Relay control in one enclosure.

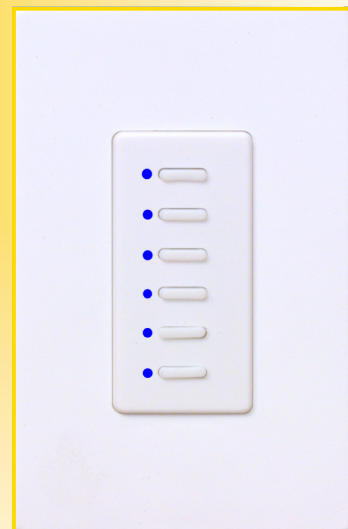

ZoneZ-D was designed to fit many existing enclosure to save on material and labor costs. It can also come in a new enclosure if desired or space does not allow.

### ZoneZ-D Features:

- Each ZoneZ-D comes with built-in user interface of simple buttons and LED's, very intuitive.
- One Control Board and three Dimmer Modules is the standard combination to dim up to 6 loads. If needed, there are options to dim more or less loads.
- Programming Options:
  - 8 Scenes
  - Switch Actions include Maintain N.O., Maintain N.C., and Auto-Off
- ZoneZ-D series makes it easy to upgrade in the future to: Time-Keeper® or ZoneZ Soft Patch Master.
- Single button controlling a relay "ON" or "OFF" (cycle or toggle)
- Master control of "All ON" or "All OFF" per group of 6 relays
- Wired locally, controlled globally in network mode
- Electronic Stuck Switch Protection
- 3 years of free phone support
- Available in the additional protocols of Modbus and DMX for control by other systems.
