

Classic

The Classic:

Touch-Plate® Lighting Controls Classic control station has been updated to become a “Classic” control station in the home. It is available in four and six button per gang configurations.

The Classic control station includes a cover that attaches into mounting holes, leaving no screws exposed.

The Classic control stations are designed for use with any new Touch-Plate Lighting Control System and they are a drop-in replacement for switches in older Touch-Plate Lighting Control System homes.

Features:

- Two wires for each button, making it a momentary switch
- Multiple Button and LED configurations
- Each button cap is 1/2” square
- Button caps having the option to be engraved
- LED options are Red, Green, or Blue
- Switch contacts rated 1 AMP @ 28 Volts

Models:

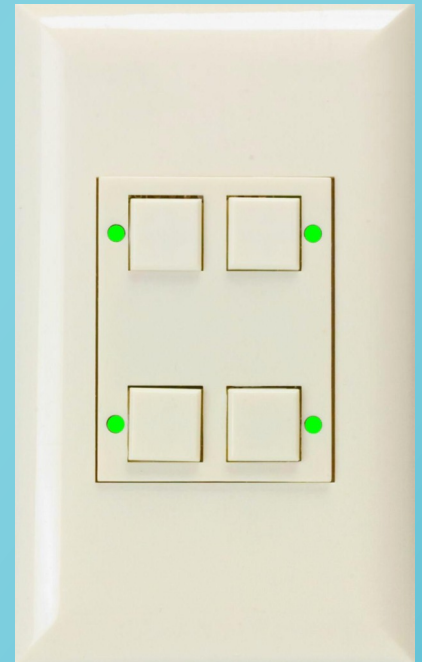

Top Right - CLA-4B-4L-ALM-G

*Comes as a complete unit (includes cover)

Bottom Right - CLA-6B-6L-IVR-R

*Engraving optional

*Comes as a complete unit (includes cover)
