

TOUCH-PLATE[®]

Classic

The Classic:

The Touch-Plate[®] Classic switch is newly updated and available in four button or six button per gang configurations.

The plastic cover attaches into mounting holes with no exposed screws.

These switches are designed for use with any new low voltage control system and are drop-in replacements for switches in older Touch-Plate[®] Lighting Control systems.

Features:

- Two-wire push button momentary switch
- Multiple switch and LED configurations
- Each switch cap ½" square
- Switch caps have engraving capability
- LED option in Blue or Green
- Switch contacts rated 1 amp @ 28 volts
